COMPANY PRESENTATION

Q. maaria
group

MAARLA GROUP

lankarakenne

- Factory in Viitasaari
- Manufacturer of fastening products for the construction and concrete industries

maarlq.

- Factory in Viitasaari
- Serial production of sheet-metal and wire products with various surface treatments.

sopvalm

- Factory in Viitasaari
- Manufacturer of sheet-metal and metal products. From blanks to complete systems.

KEY FIGURES

2008-2025

Revenue

EUR 10 million

Personnel

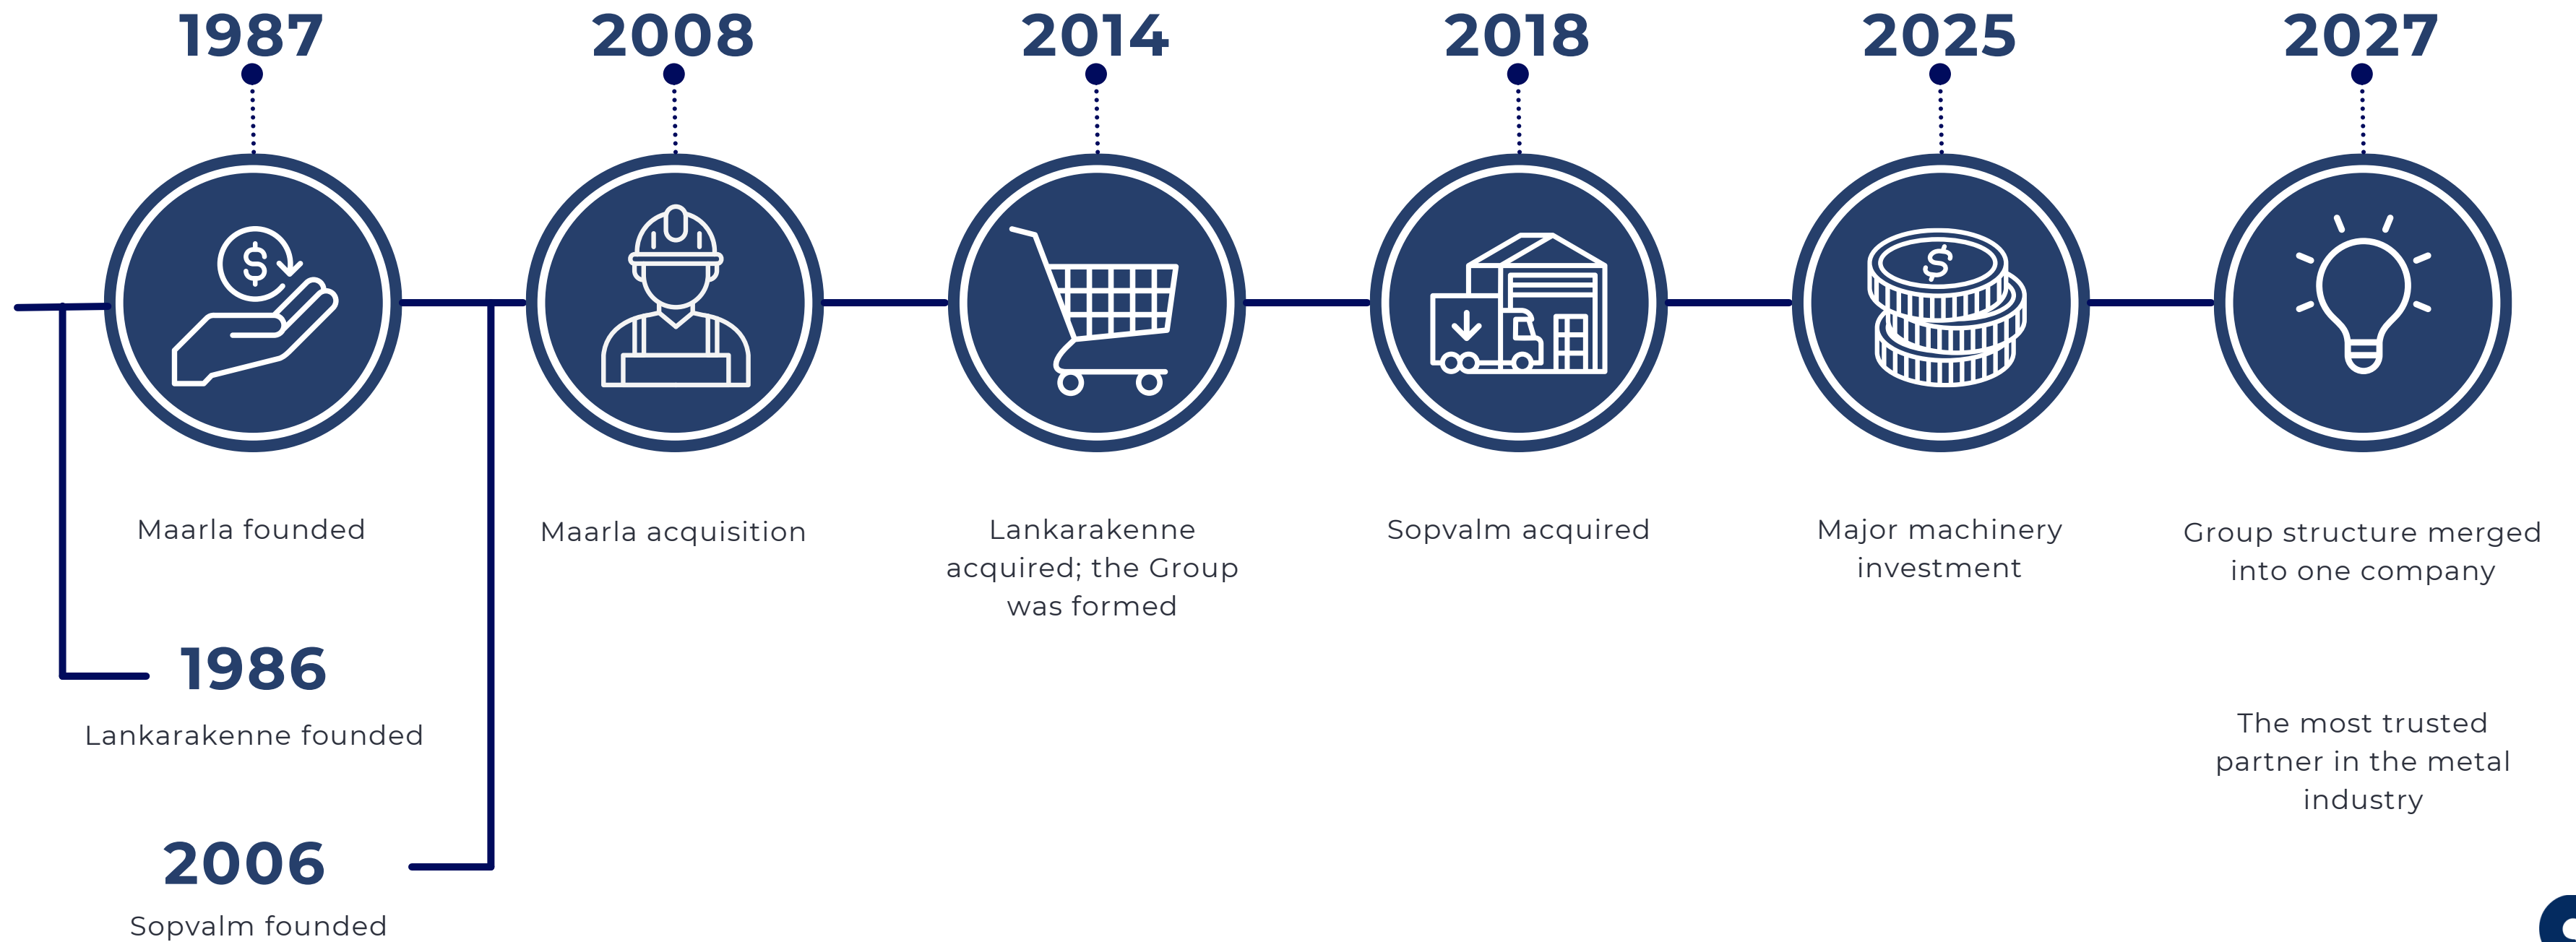

66 employees

Scale

3 factories, 12,800
m², 49 machines

HISTORY

VALUES

Customer orientation

A desire to make the customer's work easier

Responsibility

Environmental, financial and social responsibility

Working together

The best results are achieved through collaboration

US AS A SUPPLIER

MISSION

To help our customers succeed

VISION

The most trusted partner in the metal industry – a seamless part of our customers' value chain

Committed to making our customers work easier

RESPONSIBILITY

US AS A SUPPLIER

EFFICIENCY

Investing in automation and continuously improving processes

GROWTH TARGET

Revenue target: EUR 15 million by 2027
(current level: EUR 10 million)

INDUSTRY**

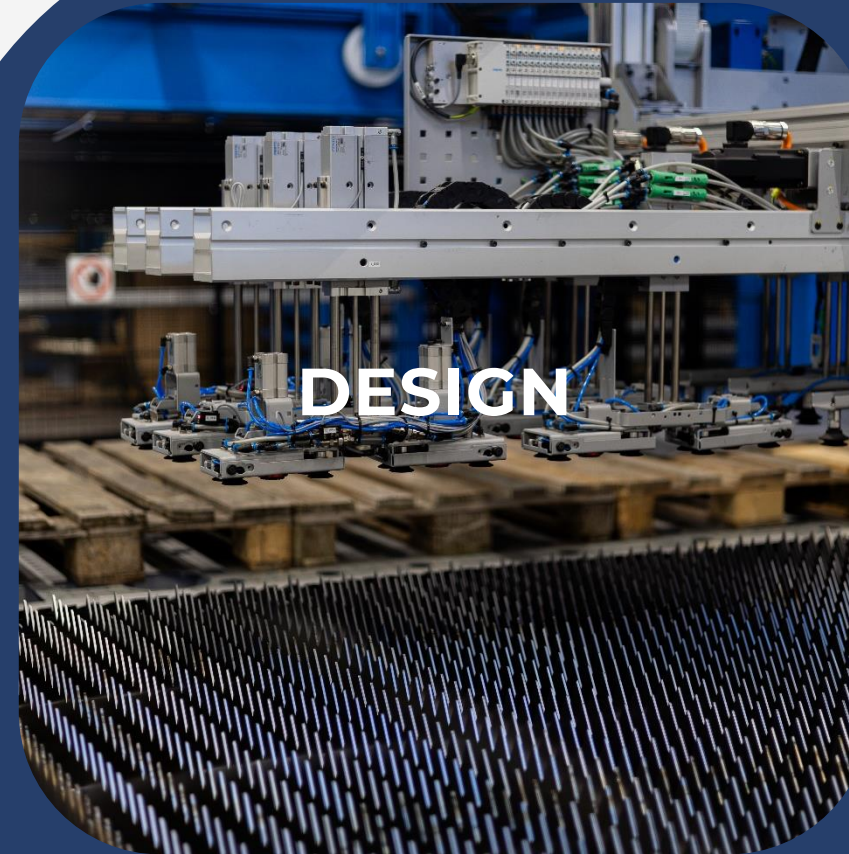

MSPO 2026

- Metal products manufactured from sheet metal, tube components and wire
 - covers
 - protective enclosures
 - stairs
 - plate bases
 - additional brackets and mounting points
 - boxes
 - doors
 - sheet-metal parts, e.g. hoods, light guards, protective shields, underbody armor
 - protective covers for weapon systems

We offer our customers a comprehensive service, from design expertise to various assemblies, surface treatments and logistics solutions.

MACHINERY

With the companies' broad expertise and versatile machinery, we can offer a wide range of services and cooperation for many industries under one roof:

Sheet Metal processing

- Q. 10 kW fiber laser
- Q. 3 sheet-metal processing centers
- Q. 200-position Night Train sheet storage
- Q. 3 guillotine shears

Blank handling

- Q. 8 presses, 45–90 t
- Q. Santsacomo 160 t coil line
- Q. Automatic saw

Press braking / bending

- Q. Bender
- Q. 10 press brakes
- Q. 3 robotic press-brake stations

Welding

- Q. 3 robotic welding stations
- Q. 600 m² welding shop; TIG, MIG/MAG

Wire and rod product manufacturing

- Q. 2 3D wire-bending machines
- Q. 3 rod machines
- Q. 2 robotic cells for bracket manufacturing

Powder coating

- Q. Powder coating shop
- Q. Travers automatic powder coating station
- Q. 2 curing ovens
- Automatic chamber washer

WELDING AND ASSEMBLY

- Q. Welding cells: TIG, MIG/MAG,
 - Q. spot welding and welding robot
- Q. Our quality is overseen by an International Welding Engineer (IWE)

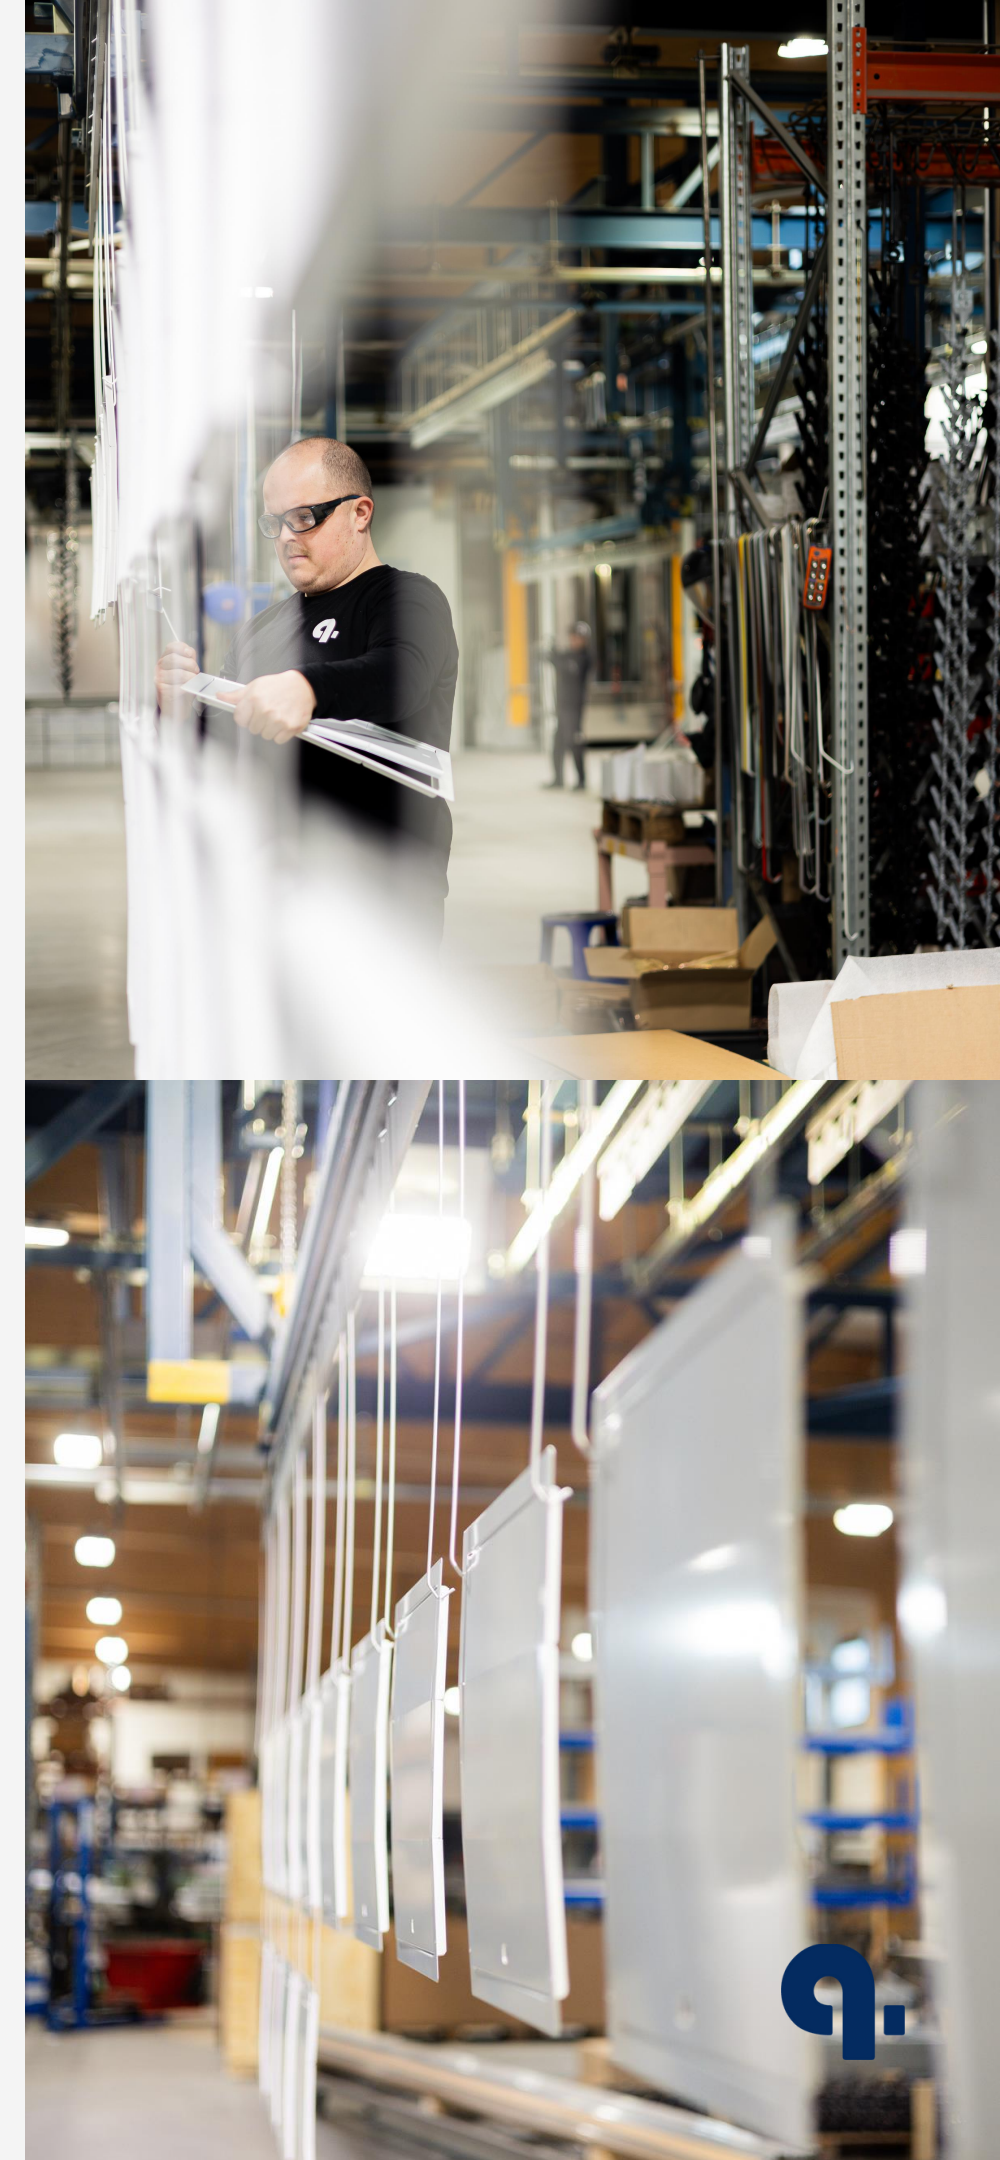

- Q. Assembly solutions ranging from individual components to complete systems
 - Q. Mechanics

Facilities, methods and strong expertise for assemblies from small to large

SURFACE TREATMENT

- Powder coating, with capacity for large items:
W2500 x H2100 x L6000 mm
- 300 kg item weight
- Environmentally friendly phosphate-free 4-stage
multi-metal pretreatment
- EN 1090 certified wet painting
- Through an extensive subcontractor network, we also
offer wet painting, galvanizing, and pickling of
stainless and acid-resistant steel products.

PARTNER WITH US

q. **We make our customers everyday work easier trough reliable deliveries and consistent quality**

q. **Innovative design expertise**

Extensive material knowledge and sourcing networks

Versatile manufacturing methods and logistics solutions

A tailored process for the customer's overall needs

The most cost-effective solutions

With us, savings are created over the service life cycle; we provide customers with the most cost-effective solutions possible.
